Concept, not final · planning pack

Car care you can find, book and pay for, in one place.

This pack shows the owner's two colleagues what CarworX is, how it would look and how it would work, before anything is built. Everything here is a **concept**: the screens are pictures, the businesses, people, prices and ratings are made up, and nothing connects to a real service.

Start with the one-page summary →

See the two walkthroughs →

PART 1 · ONE-PAGE SUMMARY

CarworX
in plain language.

CarworX (carworx.app) is a South African website where drivers find car services near them, ask questions, book a time and pay, and get straight guidance on traffic fines and vehicle admin. Businesses list themselves for free while we test the idea.

THE HOME PAGE

Five services, equal on the home page

Behind them sit three groups: **Wash & Detailing**; **Repairs & Maintenance** (servicing, glass, tyres and alignment); and **Fines & Vehicle Admin** (links to the official fines channels, listed admin helpers, and towing as a referral only).

ONE BOOKING

Nothing instant, everything in writing

01

Send a request

Pick a business and a time. You haven't paid anything.

02

Accepted within 2 business hours

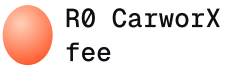

The business must accept first. If it can't, ask another.

03

Held for 15 minutes

The slot is yours while you pay. Nobody else can take it.

04

Paid to the business directly

On a secure payment partner's page. CarworX never holds it.

How booking and paying work

- **Nothing is instant.** You send a request; the business has 2 business hours to accept it.
- When they accept, the slot is **held for you for 15 minutes** while you pay.
- You pay on a secure payment partner's page. The money is split straight to the business; CarworX never holds a wallet.
- **Repairs use a quote.** The workshop sends a written quote that expires after 7 days. You approve that exact quote, then pay. Extra work needs a new quote you approve.
- Mobile businesses (for example a wash at your home) show a **travel charge** based on straight-line distance bands.
- During the free pilot the CarworX fee is **R0**.

What launches first

1. **Build the foundations** on a private test site with made-up data.
2. **Launch the free public site:** search, business listings, enquiries, business sign-ups and fines guidance. No bookings or payments yet.
3. **Add bookings, quotes and payments** on the private test site, with test money only.
4. **Switch on real payments**, one business at a time, only after legal, payment-partner and refund checks.
5. **Grow**, and test ways to earn money only with the owner's approval.

What it costs `estimates`

- Planning and the private test site: free tiers.
- Public launch: database hosting from about **US$25 a month** (needs owner approval first).
- Email: free up to 3,000 a month, then about US$20 a month.
- Card payments: the payment partner's fee per transaction, about **2.9% + R1** (excl. VAT) when researched. Who pays it is an owner decision.
- An attorney and an accountant before payments go live: quotes needed.
- Marketing: the owner's budget.

Prices are rechecked before anything is bought. Nothing in this pack approves spending.

What the business needs to do

- **Find and check businesses.** CarworX starts with zero listings anywhere in South Africa. The owner and a colleague recruit, check and support them.
- Run customer and business support.
- Appoint an Information Officer (privacy law) and agree a production budget before the public launch.
- Set up the business details and bank account for the payment partner, and decide how refunds are funded, before real payments.
- Look at this pack and tell the owner what works and what doesn't.

Still open: who pays the card fee; how refunds and chargebacks are funded; the production budget; who the Information Officer is; whether to approach fines partners; and, after this review, whether to start building (Phase 1). See Roadmap and decisions.

PART 2 · BRAND

Turbine is locked.
Studio is how the app feels.

The owner has locked the **Turbine** logo: five impeller blades around an open hub, like a turbo spooling up. The X in the name leans at the same angle as one blade tip. The logo is final. The app's look, called **Studio**, is the chosen direction and is still **concept, not final**.

THE LOGO · FINAL

Turbine in motion

NAME AND LOCKUPS

Always CarworX

Always written **CarworX**: a capital C, a capital X, and *arwor* in lowercase. Never "Carworx", "CARWORX" or "CarWorx". The logo artwork is never retyped; it is inlined here from the brand files.

Signal orange `#ff3b0a` is an app accent only. It is **never** part of the mark.

Clear space

On every side, leave at least the height of the X (the orange square).

Minimum sizes

Mark: 24 px. Below 48 px, use the small version, with heavier blades and a bigger hub.

CarworX **Horizontal lockup: 96 px wide.**

Two optical sizes

Full mark from 48 px; small mark for 16–47 px, embroidery and stamps.

⚠ Don't stretch or squash it.

⚠ Don't recolour it in signal orange.

⚠ Don't rotate the lockup.

⚠ Don't add shadows or effects.

⚠ Don't rearrange the mark and the name.

⚠ Don't write it Carworx or CARWORX.

CHOSEN DIRECTION · CONCEPT, NOT FINAL

Studio: the UI language

A calm, light desk where the objects of a booking float in soft depth: a sticky note, a confirmed tile, a hold timer and a written quote. Every screen says what happens next. The owner chose Studio over two other directions (D-035) and approved it after two refinement passes (D-036). It is a concept; Phase 1 design-system work decides the final tokens.

Colour roles

Canvas

`#f2f1ee` + 24 px dot grid
The page ground. Ink on canvas 17.0:1.

Ink

`#0d0f12`
Headlines, text, the one primary button.

Muted

`#5b6470`
Body and captions. 5.3:1 on canvas.

Quiet

`#727a85`
Grey second headline lines, 24 px and up only (3.8:1).

Blue

`#3d6dff` · text `#2a54d4`
Confirmations and info. 5.3:1 on sky.

Signal

`#ff3b0a`
Only for things counting down. Never small text; never the logo.

Status colours for done, waiting and problems (green 5.7:1, amber 5.8:1, red 6.6:1, each on its own tint) are concept additions, not in `tokens.json` yet.

Type

Book a wash in minutes

Geist: headlines and text. Neutral, so the outlined wordmark (drawn from Sora) stays the one distinctive letterform.

`R330.00 · CX-2048 · 14:32`

Geist Mono: prices, references, timers and receipts.

---

ask about the travel charge

Caveat: handwriting, used sparingly on sticky notes.

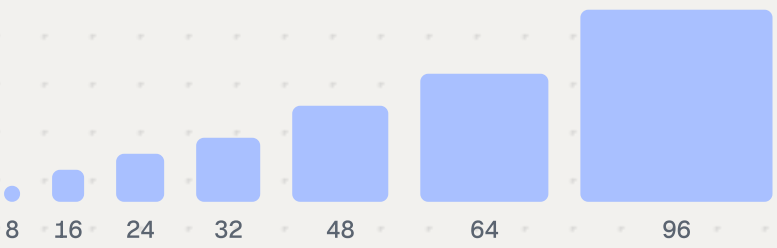

One shadow scale

`sh-1 · cards`

`sh-2 · objects`

`sh-3 · lifted`

8 px spacing

Frosted surfaces

Shine through, softly

White at 55–85% with a blur. Used for the nav, sheets and phones. Text always sits on a surface that keeps AA contrast.

Tactile objects

Soft-3D service object

Sticky note: the request

Hold timer

Motion

Mechanical, not bouncy

The logo spools with turbo lag, surge and a damped spring, from the brand timeline.

Springs for objects

Objects spring in from the edges and lift on hover. Keys press down when tapped.

Scroll-linked, never scroll-jacked

Scrolling moves things along a timeline; the browser's own scroll is never taken over.

Reduced motion respected

With reduced motion on, the intro is a still logo, nothing drifts, and the logo film shows its last frame.

Tone of voice

Plain, honest and calm, in South African English. Say what happens next and what it costs. Never promise what we can't check.

Say: "Request sent. Gleamline has until 11:40 to reply. You haven't paid anything."
Not: "Booked instantly!"

Say: "No wash businesses within 25 km yet. Tell us what you need and we'll let you know."
Not: "Hundreds of providers near you."

Say: "No results here doesn't mean you have no fines. Check the official channels."
Not: "You're all clear!"

PART 3 · LAYOUTS, PHONE FIRST

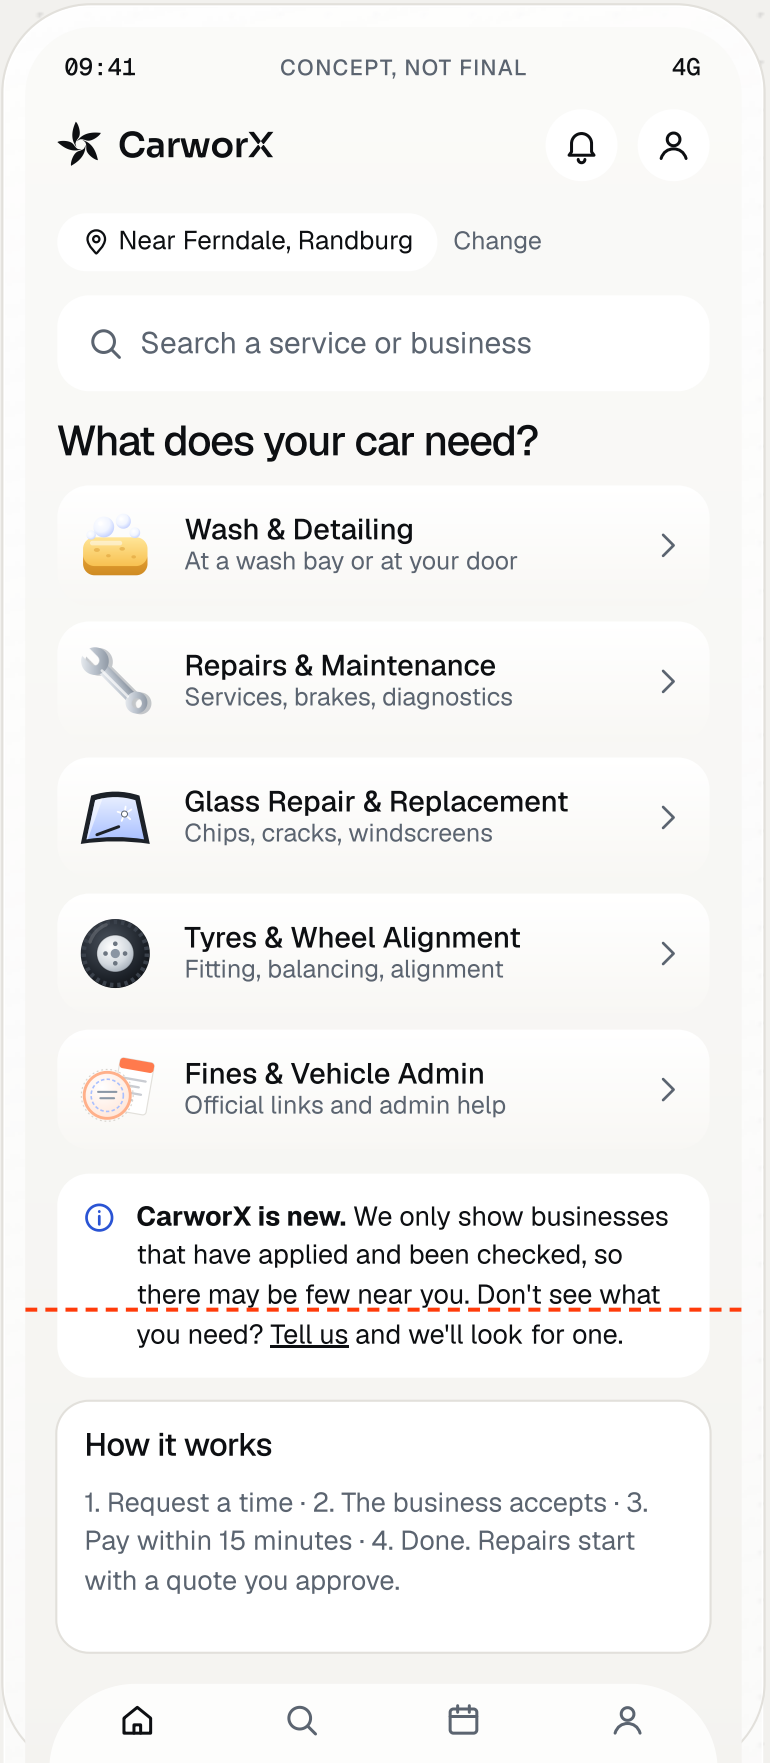

Eight phone screens, with the moments that matter.

Each group shows the main screen on a 360-pixel-wide phone, then the other states it must handle: waiting, expiring, failing, empty and paused. All businesses, people, prices and ratings are fictional.

Concept, not final

01 Home: five equal shortcuts

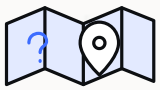

The five services get equal space and all five are visible on a small phone without scrolling (the orange dashed line marks the bottom of a 360 × 640 screen). Below them, we say honestly how many businesses there are.

Home Search Bookings Account

Home, first open. Fictional location.

STATE · LIMITED SUPPLY

⚠ **Few businesses near Polokwane yet.** 1 wash business and 0 tyre businesses within 25 km.

Ask for a business here

Tell us the service and rough area. We use it only to recruit businesses and to let you know.

Tell us what you need

STATE · NO LOCATION YET

Where's the car?

Suburb, town or postcode

You can browse with a suburb. We don't need your exact address until you book a business that comes to you.

STATE · ERROR

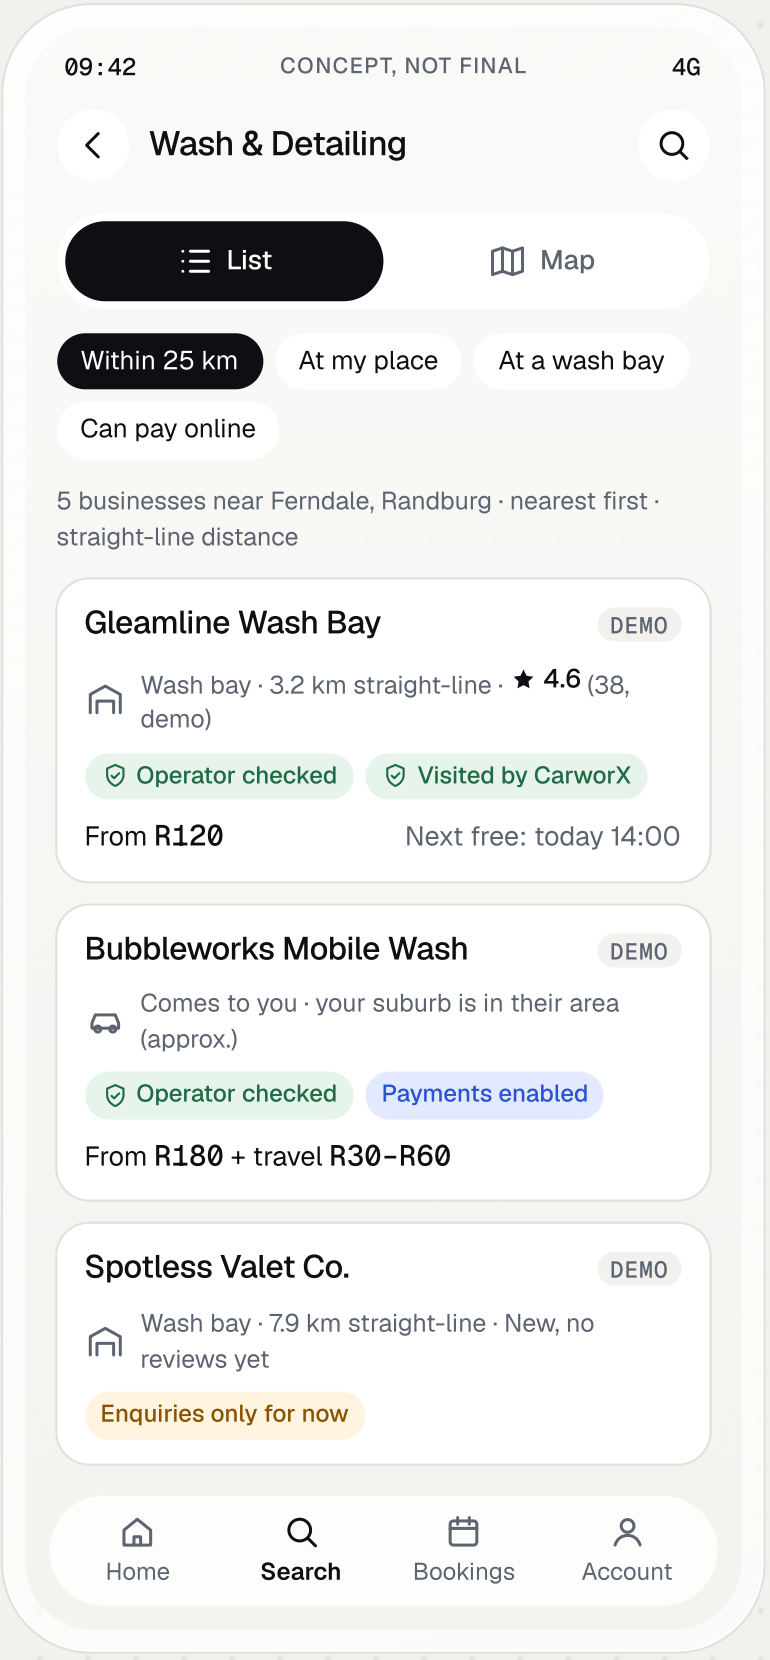

⚠ **We couldn't load this page.** Check your signal and try again. Nothing you entered was lost.

Try again

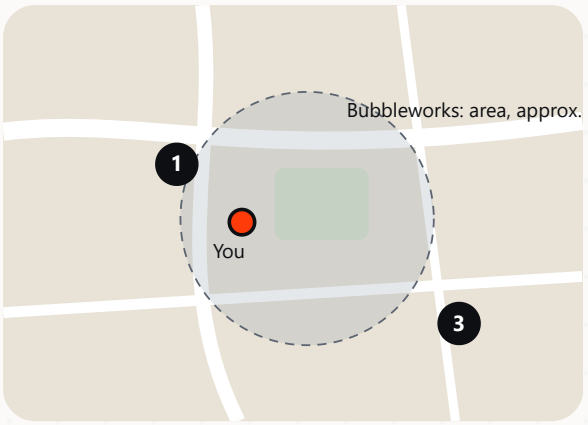

02 Search results: list and map

The list always works; the map is optional. Distances are straight-line and say so. A business that comes to you shows no distance, because that would reveal where it is based. If nothing is near, we say so and offer to widen the search or record the need. Searches never widen silently.

List first. Labels say exactly what was checked.

VIEW · MAP (OPTIONAL)

Pins show businesses with a public address. Mobile businesses show only a rough shaded area, never their base.

STATE · NOTHING NEARBY

No tyre businesses within 25 km yet

CarworX is new near Mahikeng. You can look further, or tell us what you need.

Look within 50 km

03 Business listing

Prices, times and what CarworX checked, with how and when. A request is not an instant booking: the business must accept it first. A paused business can't take new bookings.

Bubbleworks has 2 business hours to accept a request.
You pay only after they accept.

A mobile business: its base is never shown.

STATE · BUSINESS PAUSED

Not taking new bookings. CarworX has paused this business while we look into a report. If you have a booking with them, we'll contact you.

See similar businesses

VARIANT · WASH BAY WITH AN ADDRESS

Gleamline Wash Bay DEMO

14 Example Rd, Ferndale (shown with permission)

Operator checked

Business registration checked

Visited by CarworX

Open Mon–Sat 08:00–17:00

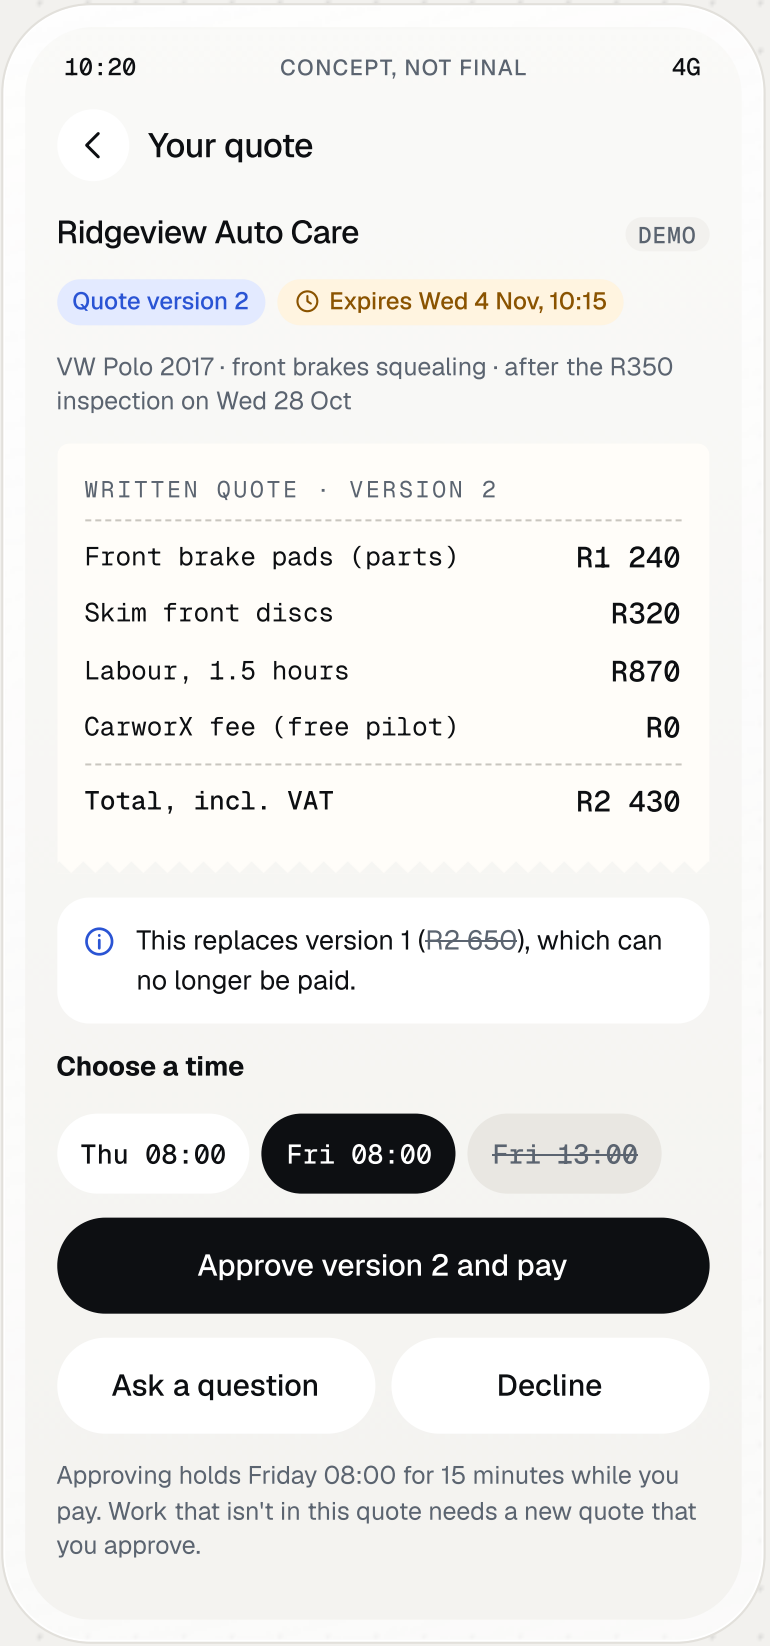

VARIANT · ENQUIRIES ONLY

Spotless Valet Co. isn't taking online bookings yet. Send a question and they'll reply by email.

Ask a question

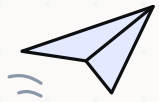

04 Booking and quote approval

For repairs the workshop sends a written quote with an expiry date. The customer approves that exact version. A revised quote replaces the old one, which can no longer be paid. Extra work found later needs its own change quote.

Pieter's repair quote (see Journeys).

STATE · WAITING FOR THE BUSINESS

Request sent to Bubbleworks

They have until **11:40 today** to accept (2 business hours). You haven't paid anything.

Business hours: Mon–Sat 08:00–17:00, excluding public holidays.

STATE · NO REPLY IN TIME

Bubbleworks didn't reply by 11:40. Your request has lapsed. Nothing was charged.

See other wash businesses

STATE · QUOTE EXPIRED

Quote version 2 expired on Wed 4 Nov. It can't be approved any more. Prices may have changed.

Ask Ridgeview for a new quote

STATE · CHANGE QUOTE DURING WORK

Change quote C1

Needs your OK

The rear pads are also worn: R1 150 extra. Your paid quote (version 2, R2 430) stays exactly as it is.

Approve and pay

VARIANT · TRAVEL CHARGE

Full wash, in and out	R280
Travel, 10–20 km band	R50

The band is measured in a straight line, not by road. Bubbleworks confirmed 30 minutes of travel time for this slot.

05 Checkout and what happens after

Once the business accepts, the slot is held for 15 minutes. Payment happens on the payment partner's secure page. We confirm only when the payment partner tells us the money arrived, never just because the browser came back. In this pack nothing is charged: payments would run in test mode.

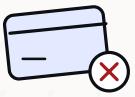

Thandi's wash (see Journeys).

STATE · CHECKING PAYMENT

Checking your payment…

We're waiting for the payment partner to confirm. **Please don't pay again.** This page updates by itself.

STATE · PAYMENT FAILED

The payment didn't go through. Nothing was taken. Your slot is still held for `09:12`.

Try again

STATE · HOLD EXPIRED

Your 15 minutes ran out. The slot was released. If you started paying, check your payment status before trying again.

Check if Sat 09:00 is still free

STATE · PAID, NEEDS SORTING OUT

Your payment of R330 arrived after the hold ran out. Your booking isn't confirmed yet. Choose what you'd like:

Rebook Sat 09:00 (still free)

Get a full refund

STATE · CONFIRMED

Booked and paid
Bubbleworks, Sat 31 Oct, 09:00–10:30

Ref CX-2048 — Paid to the business

Your full address goes only to the staff member assigned to the job, and only now that it's confirmed.

STATE · CANCELLED, REFUND PROCESSING

Booking cancelled — Refund processing

R330 back to your card: requested → **processing** → paid back. Banks can take a few working days.

STATE · PROBLEM REPORTED

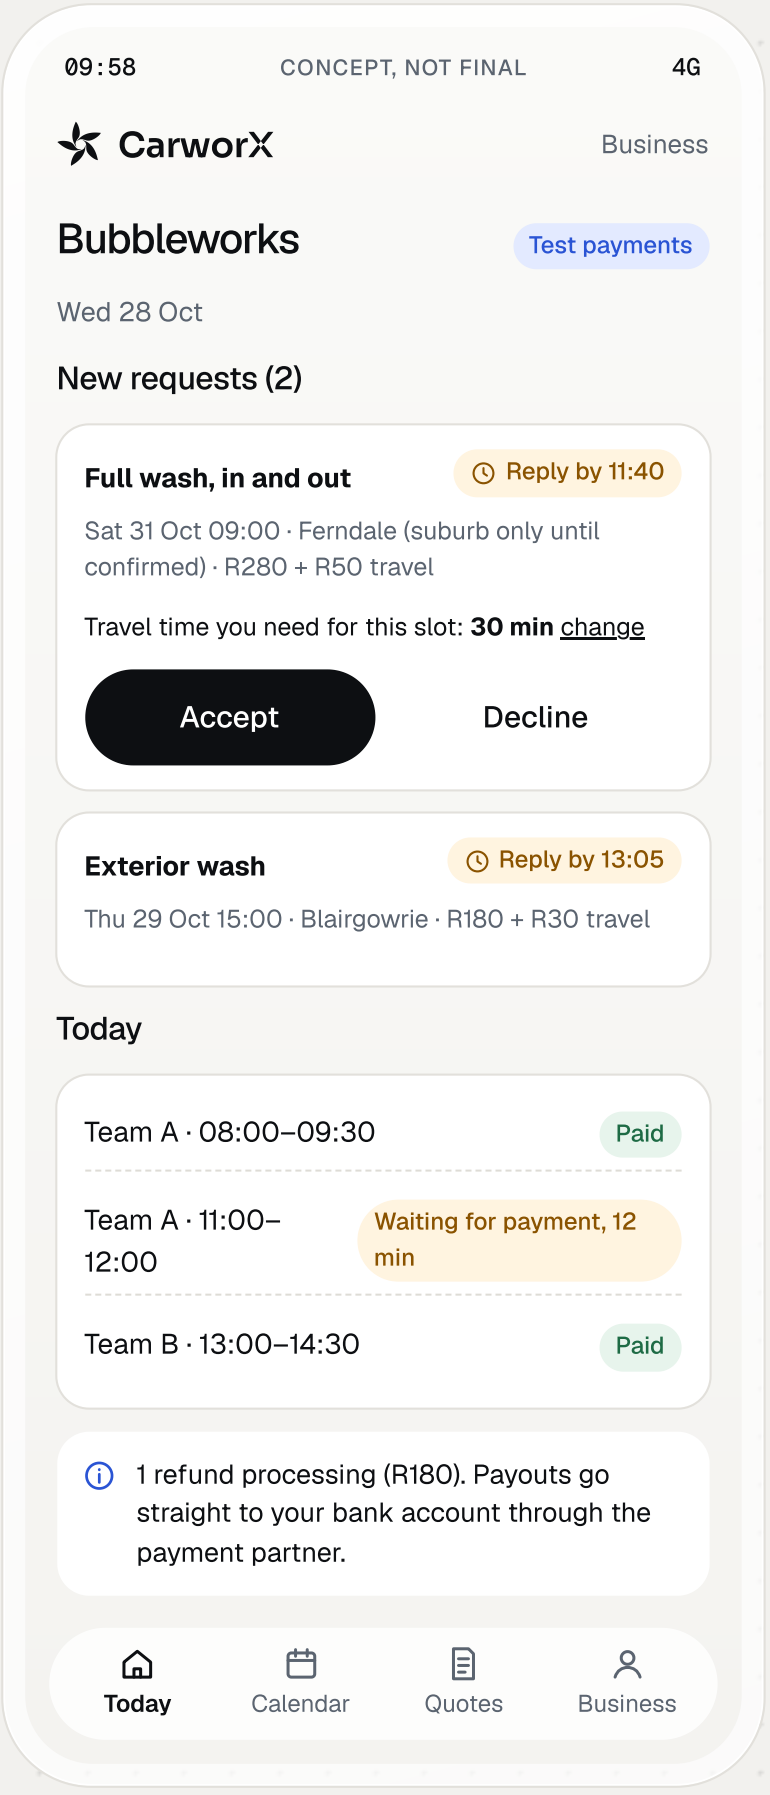

Case CX-2048-1

Open

"Interior not cleaned." We've asked Bubbleworks for their side and will reply within 1 business day.

06 Business dashboard

What a business sees: requests with a reply deadline, today's jobs per bay or team, and payment status. A mobile business sees only the suburb until a booking is confirmed.

Requests show a reply-by time.

PART 4 · WALKTHROUGHS

Two people, two jobs.

These show how bookings and quotes would work once payments are switched on (Phase 4). The first public site launches with search, listings and enquiries only. Thandi and Pieter are fictional. As you scroll, one booking travels along the steps and changes form.

JOURNEY 1

Thandi books a wash

T

Thandi
Ferndale, Randburg

Works from home on Fridays. Wants the car washed at home on Saturday morning without driving anywhere.

Pays: R330 (R280 wash + R50 travel + R0 CarworX fee)

01

THANDI

Taps Wash & Detailing on the home page.

All five services are equal and visible straight away. Home screen

02

THANDI

Filters to "At my place".

Bubbleworks Mobile Wash covers her suburb (approximately). No distance is shown, so their base stays private. Travel is R30–R60 by straight-line band. Search results

03

THANDI

Reads the listing and requests Sat 09:00.

She sees what CarworX checked and the prices. Bubbleworks has until 11:40 to reply; she hasn't paid anything. Listing · Waiting state

04

BUBBLEWORKS

Accepts and confirms 30 minutes of travel time.

They see "Ferndale", not her address. Accepting puts a 15-minute hold on the slot. Dashboard

05

THANDI

Pays R330 on the payment partner's page.

The CarworX fee is R0 in the pilot. The money goes to Bubbleworks. Checkout

06

CARWORX

Confirms only when the payment partner confirms.

"Checking your payment… please don't pay again." Then: booked, ref CX-2048. Only now does the assigned team see her full address.

07

THANDI

Gets her wash, then leaves a review.

Bubbleworks' view of her address is hidden 7 days after the job.

What if…

- **Bubbleworks doesn't reply by 11:40?** The request lapses, nothing is charged, and she's shown other businesses.
- **Her card fails?** Nothing is taken and the slot stays held until the 15 minutes run out.
- **The 15 minutes run out?** The slot is released. If her money arrives late anyway, she chooses rebook or a full refund. It's never confirmed silently.
- **She cancels, or the wash goes wrong?** Refund under the business's terms, or a reported problem with a case number.

JOURNEY 2

Pieter gets a repair quote

P

Pieter

Bellville, Cape Town

His 2017 VW Polo's front brakes are squealing. He wants a clear price before any work starts.

Pays: R350 inspection, then R2 430 for quote version 2

01

PIETER

Taps Repairs & Maintenance and finds Ridgeview Auto Care.

A workshop with an address, checked and visited by CarworX. Search · Listing

02

PIETER

Books a fixed-price inspection for R350.

Same steps as Thandi: request, the workshop accepts, a 15-minute hold, then he pays. Checkout

03

RIDGEVIEW

Inspects the car and sends quote version 1: R2 650.

A written quote with a visible expiry, 7 days by default. Once sent, it can't be edited. Write a quote

04

RIDGEVIEW

Revises it to version 2: R2 430.

Version 1 is replaced and can no longer be paid, so there's never any doubt which price applies.

05

PIETER

Approves version 2 before it expires and picks Fri 08:00.

Approving holds the slot for 15 minutes while he pays R2 430. Quote approval

06 ⚠

RIDGEVIEW

Finds the rear pads worn too and sends change quote C1: R1 150.

He approves or declines it separately. His paid quote stays exactly as it was.

07 ★

CARWORX

Job done; Pieter reviews it.

If something's wrong he reports it, and a case number tracks it.

? What if...

- **He waits more than 7 days?** The quote expires and can't be approved; he asks for a new one.
- **He declines the quote?** He has paid only for the inspection. No other charge.
- **Ridgeview gets paused by CarworX?** It can't take new bookings, and CarworX contacts people with existing ones.

PART 5 · ROADMAP AND DECISIONS

What happens when, and what's still to decide.

Each phase needs the owner's go-ahead. Agreeing on the plan approves Phase 1 only, and only after this pack has been shown to the colleagues.

PHASES

One step at a time

0a — **Technical plan**
Written by Claude and checked and signed by Codex. Done.

0b — **This pack (now)**
The owner shows the colleagues and collects feedback.

1 — **Foundations**
A private test site with made-up data, sign-in and the design system. Needs the owner's approval of the plan.

2 — **Free public site**
Search, listings, business sign-ups, enquiries and fines guidance. Needs a budget, privacy and legal checks first.

3 — **Bookings and quotes, test money only**
Holds, quotes, travel charges, notifications, refunds and disputes tested on the private site.

4 — **Real payments**
Switched on one business at a time, after the payment partner, attorney and refund funding are confirmed.

5 — **Grow**
More businesses, and earning money only through experiments the owner approves.

Key decisions already made

- ✓ Drivers anywhere in South Africa; businesses with premises and mobile ones.

- ✓ Five equal shortcuts across three service groups.
- ✓ A free pilot: the CarworX fee is R0.
- ✓ Businesses accept first; then a 15-minute hold and payment. Repairs go through a quote that is approved, then paid.
- ✓ Fines: guidance and official links only, no ID numbers, until a partner and legal checks are in place.
- ✓ Every business is checked by a person; labels can't be bought.
- ✓ The Turbine logo is locked. D-034
- ✓ Studio is the chosen UI language for this pack, after two refinement passes. Still a concept, not final; it approves no Phase 1 work. D-035 · D-036
- ✓ This pack stays as local files; putting it online needs separate permission.

Ways to earn later (optional, owner approves each)

1. A commission on paid bookings.
2. Clearly labelled sponsorship, never on payment screens.
3. Scheduling and reports for fleets and small businesses.

Never: selling personal data, paid trust badges, or ads in transactional emails.

Decisions the business still needs to make

DECISION	WHY IT MATTERS	NEEDED BY
Feedback on this pack	Does the idea make sense? Do the brand and screens work? Anything missing?	Now
Start building (Phase 1)?	Approving the plan starts the private test site only. It isn't approval for anything after that.	After colleague feedback
Production budget	Hosting with backups for the public site, from about US$25 a month (estimate).	Before the public launch
Information Officer	Required under South African privacy law (POPIA).	Before the public launch
Business type and bank account	The payment partner needs them, first for test payments.	Phase 3
Who pays the card fee; how refunds are funded	Recommended: the business pays the card fee, shown openly. Refunds and chargebacks need a funded process before real money.	Before real payments
Approaching fines partners	A built-in fines lookup needs a partner and the owner's permission to approach one.	Only if wanted
Unpaid reservations	Default is no: nothing is confirmed until it's paid.	Only if wanted

CarworX

Concept, not final. All businesses, people, prices and ratings are fictional.

Addresses and reference numbers are made up too. No real endorsements, no live services, no tracking. Payment and fines screens are illustrations only. Turbine logo: final (D-034). Studio UI language: chosen direction, concept, not final (D-036).

Based on PLAN 2.1 (§10, §22) and decisions D-001–D-036. Brand files: design/brand. Static exports: exports/. Checks: QA.md. Fonts: Geist, Geist Mono and Caveat, SIL Open Font Licence.
